

- Implemented graphic conversion aspect of First Union's acquisition of Dominion Bank and American Security Bank in Virginia, Maryland, Washington DC, and Tennessee. Nearly 4,000 signs manufactured and installed. Overall project was completed well below budget.
- Provided engineering, prototyping, and implementation of First Union's "Fast Break 500" branch enhancement program.
- Worked hand-in-hand with First Union marketing and facility groups on the initial development of First Union's proprietary ATM program. Design, engineering, prototyping, and implementation process was far-reaching and included numerous ATM delivery solutions.
- Worked extensively in the development and production of First Union's graphic standards manual.
- Implemented overall graphic conversion aspect of First Union's acquisition of Southern Bank & Trust.
- Implemented ATM graphic conversion aspect of First Union's acquisition of Northwestern Bank.
- Developed several "one off" specialized ATM applications for First Union North Carolina, First Union Florida, and First Union Georgia.

- Implemented graphic conversion aspect of Wachovia's acquisition of First Atlanta. Project was substantially completed over Memorial Day holiday weekend.
- Implemented graphic conversion aspect of Wachovia's acquisition of South Carolina National.
- Provided design, engineering, and prototype support in the creation of Wachovia's current main pylon design.
- Developed and implemented an upgraded freestanding interior rate board design for system-wide application.
- Developed and implemented a standard exterior wayfinding system for broad application.

- Implemented graphic conversion aspect of BankBoston's acquisition of BayBank. Project scope encompassed 1300+ branches and ATM faciliated locations throughout Massachusetts, Connecticut, Rhode Island and New Hampshire.
- Provided design enhancement, engineering and prototyping of full range of new BankBoston signage solutions.
- Provided system-wide technical surveys (1300+ locations).
- Provided design enhancement, engineering and prototyping of BayBank retrofit ATM solutions.
