

 **GENERAL DYNAMICS**
Aviation Services®

Client: General Dynamics
Designer: Degnen Associates
Implementation: Image Resource Group

General Dynamics selected Image Resource Group to implement both interim and permanent signage in support of its acquisition of Gulfstream Aviation. Our services involved a technical audit of each location, followed by detailed permit and regulatory research with the respective local government and airport authorities. In response to our findings, signage recommendations were submitted and subsequently approved. Our responsibilities then involved the manufacture and installation of all primary and secondary signage at each GDAS facility.
